triomax

It is the epitome of refined elegance, operation simplicity, superior performance and application diversity. Harn's commitment to quality and reliability makes Triomax the ultimate partner to any cabinet. Its smooth running action and attractive design blend harmoniously with modern homes and kitchens.

Smooth and stable

- The slide mechanism consists of 2 nests of 3 load bearing nylon rollers enclosed in 2 steel channels. These channels are strategically positioned top and bottom of a Steel (I) Beam.
- New reinforced Intermediate Channel provides good side stability.

Sylent

- Sylent automatically adapts to the varying closing speed and weight of the drawer to regulate the closing action.
- Dust prevention design offers the damper system extended lifespan.

Organiseplus

A kitchen can be organised into distinct areas, each representing a specific function. Grouping of storage contents based on specific functions will help optimise the work flow. Triomax has a complete programme to help you create an effective and efficient kitchen.

Organiseplus complements by allowing you to organise your drawer contents in a neat and tidy manner. A series of stainless steel trays and adjustable dividers offers a perfect fit for your utensils. It is easy to remove and is dishwasher friendly. The Divider Panels, Lateral Dividers and Cross Railings help organise crockery, pots, pans, appliances and containers.

Consumables

- Foodstuffs.
- Organised in Larder Units, efficient use of storage space.
- Easy access to individual drawers to retrieve and replenish.

Tableware

Cleaning

Preparation

Cooking

- Cutlery, plates, food storage containers and appliances.
- Custom fit storage compartments for utensils.

- Sink, dishwasher, waste storage, cleaning agents and utensils.
- Specialised sink drawer for efficient space utilisation.

- Food preparation appliances, utensils, oils, sauces and opened stored foodstuff.
- Best located between Cleaning and Cooking area due to food preparation work flow.

- Hob, oven, microwave oven, pots, pans, baking ware and utensils.
- Smooth sliding action even when fully loaded.
